

GOOD SAMARITAN MINISTRY

With the Parable of the Good Samaritan as foundational scripture, All In Community is working to create a network of trained care providers (i.e. Stephen Ministers) that offer supportive, one-on-one care with individuals affected by the criminal justice system.

Caring relationships through Good Samaritan Ministry will be established on two different paths . . .

Two paths to serve and to care

Inside Correctional Facilities

- Supporting the chaplains at each facility in the ODRC
- Supporting the Stephen Ministers inside each facility as they care for their fellow inmates

Two paths to serve and to care

Outside in Communities

- Families of those who are incarcerated
- Returning citizens (formerly incarcerated individuals) and their families
- Victims and their families

Through these two different paths, referrals will be done in two different ways. Caring relationships that are formed **outside** in communities will be referred to the Greater Cincinnati Stephen Ministry Network by the All In Community Training & Ministry Coordinator. Caring relationships formed **inside** correctional facilities will be done through the All In Community Training & Ministry Coordinator.

This is a pilot program being implemented and resourced through the collaboration of the Ohio Department of Rehabilitation and Correction, Stephen Ministries (St. Louis), and the West Ohio Conference of the United Methodist Church.
